Obstetrics & Gynecology

Please read carefully

If you are pregnant and have symptoms listed in the questionnaire on the right suggestive of a Covid infection, please go and get tested and then stay at home until you have the results. Please inform me of these results as soon as you get them.

You can take Tylenol for fever and pain. **Do not take Advil/Motrin/Aleve or any other Non Steroidal Anti inflammatory drug (NSAID) while pregnant.**

If you are feeling extremely ill and/or having trouble breathing please call the 811 hotline or (604) 875-2154 for advice on where to go to get help.

On entering the hospital

When you enter the hospital you will be asked to fill out a similar questionnaire and/or you'll be asked these questions.

COVID19 Questionnaire: Part A

Please do not come to the office or hospital if you answer **YES** to any of the questions below. Please go and get a COVID swab and please inform us of the result.

Have you returned from travel outside of Canada within the past 14 days?

Been in close contact with anyone diagnosed with lab confirmed COVID19 positive?

Lived or worked in a setting that is part of a COVID19 outbreak in the past 14 days?

Been advised to self-isolate or quarantine at home by public health?

Been in close contact with a household member who is sick?
